

10th International Conference on **Sensitivity Analysis of Model Output (SAMO)**

MARCH 14-16, 2022

The SAMO conference is devoted to advances in research on sensitivity analysis methods and their interdisciplinary applications. The SAMO conferences are held every three years. The aim of the SAMO conferences is to bring together users of sensitivity analysis in all disciplines of science. Sensitivity analysis methods are powerful tools in physics, operations research, chemistry, biology, engineering, environmental science, nuclear and industrial safety, economics and finance.

SAMO Executive Committee

Giray Ökten - President
William Becker - co-President
Samuele Lo Piano - co-President

Local Organizing Committee

Giray Ökten (Chair)
Nick Cogan
Aseel Farhat
Yousuff Hussaini
Billy Oates

PLENARY SPEAKERS

Agnès Lagnoux
*Institut de Mathématiques de Toulouse
Université Toulouse 2 Jean Jaurès*

Juliane Mai
*Department of Civil and Environmental
Engineering
University of Waterloo*

Art Owen
*Department of Statistics
Stanford University*

Samuele Lo Piano
University of Reading

Clémentine Prieur
Université Grenoble Alpes

Sébastien Da Veiga
Safran Tech

IMPORTANT DATES:

Abstract submission ends: **September 1, 2021**
Registration opens: **October 1, 2021**
